EDUCATION

Vellore Institute of Technology

Bachelor of Technology, Computer Science and Engineering

Sept 2022- June 2026

Current CGPA: **8.9**

Belonia Vidyapith H.S School

Higher Secondary (+2), PCMB

June 2022

Percentage: **89%**

INTERSHIPS

DECENTRO | SDE Intern

(November 2025 - January 2026)

- Implemented a new UIStream user flow by building FastAPI-based backend services and integrating frontend redirection, enabling smooth end-to-end user onboarding.
- Developed and integrated asynchronous callbacks for Hyperstream (combined KYC API) with real-time Slack alerts for validation and monitoring.
- Automated CKYC API workflows using Python, Selenium WebDriver, and Robot Framework, reducing manual verification effort.
- Set up Locust load testing to evaluate system performance under high traffic scenarios and identify performance bottlenecks.
- Built a Slack bot to trigger, track, and validate CKYC automation, API validations, and Jira story-to-test-case setup using real user data.

MYTHYVERSE | SDE Intern

(April 2025 – August 2025)

- Designed and developed a full-stack Agri-Tech application with buyer/seller modules and a super admin dashboard using Flutter, Dart, Firebase and React.js.
- Implemented 47+ user interfaces with structured state management, 2FA and sessions, and profile verification using KYC APIs and government-issued document validation.
- Contributed to the frontend architecture for Elevate Classes (Next.js) and an AI-powered tourism platform, improving usability and performance.
- Delivered structured project handovers with clear technical documentation, resulting in a 15% improvement in project timelines.

PROJECTS

SyncCode (synccode.live) [[Demo Video](#)]

(Jan 2025- April 2025)

- Developed a real-time collaborative coding platform enabling simultaneous code editing, instant execution across multiple languages, integrated video calls, and screen sharing for seamless remote team collaboration and pair programming. Built using React.js, Node.js, Socket.io (real-time sync), WebRTC (P2P communication), CodeMirror with Yjs (collaborative editing), and Piston API (code execution).
- Achieved **2,500+** unique users and **15,000+** page views across 22+ countries within one month, demonstrating strong engagement and platform adoption.

Agrim - Agriculture Ecosystem ([GitHub](#))

(April 2025 - August 2025)

- Built a scalable mobile app with dual modules for farmers and buyers. Farmers can list their crops with ML-predicted prices and quality, and buyers can make direct purchases. Enabled reverse listing for selling seeds and raw materials to farmers. Connected to soil quality sensors for data collection, storing readings for analysis and insights.
- Tech stack: Flutter (with Provider), Firebase, GCP, Node.js, Google Maps API, and ML models. Designed for extensibility and future extension.

StudioClicks ([GitHub](#))

(Oct 2025 - Oct 2025)

- Developed an AI-powered image generation platform that enables users to create cinematic, Ghibli-style, anime and themed visuals via prompt-based input, with support for multiple visual themes and on-the-fly image rendering.
- Tech stack: JavaScript, Node.js, Express.js, React, AWS S3, AWS EBS, AWS CloudFront, Route 53.

SKILLS

Technical Skills

- Programming language: Java, Python(basic), Dart, JavaScript
- Backend & Frameworks : Node.js, Express.js, FastAPI
- Frontend: HTML, CSS, React.js, Flutter, Vite
- Database: MySQL, MongoDB.
- Tools & Technologies: Git, JIRA, Docker, Firebase, Postman, AWS (S3, CloudFront, Route53), API Testing, Selenium.

Soft Skills : Problem solving, Communication Skills, Critical Thinking, Time Management, Teamwork.

ACHIEVEMENTS

- Secured National Finalist position at Flipkart GRID Robo 6.0 (2024) and National Semifinalist at Tata Imagination Challenge(2024), showcasing innovative problem-solving skills at prestigious competitions.
- Achieved Best Project Award twice, ranking in the top 10 among 600+ teams at VIT-AP Engineering Clinics Competition (2023 & 2024), demonstrating technical excellence and impact.

CERTIFICATES

- MongoDB Associate Database Administrator([MongoDB](#))
- SQL (Intermediate) Certificate ([HackerRank](#))
- Oracle Java Foundations ([Oracle](#))
- Android Development ([Udemy](#))
